

DIAGO s.f. company was established in 1993 as private company concerned with sale of bearings and technical diagnostic.

The company spreaded wide and at the moment has 5 branches in Slovakia and is well known as seller of worldwide brands.

We are available each day 24h and have the biggest stock of bearings in Slovak republic.

Our warehouse has cca 11 000 m². We offer prompt and quality service for our customers and industry. Right storage of bearings and other goods is important to us - capacity, lighting, right ventilating and heating, logistic.

Our long-time experiences and development of our company at technical diagnostic, application and realization of lubrication systems, production of special bearings allows us to find use at paper, steel, automobil, chemical industry and machine engineering.

Our company has a quality system. Since 2004 we achieved ISO 9001:2000.

- certificate ISO 9001 : 2000

- evaluation of MSV 2008 Nitra for our bearing ZLK 110/190

- evaluation of economy minister for our bearing ZLK 110/190

Activities and range of goods:

-  - rolling bearings
-  - sleeve bearings
-  - large - size slewing bearings
-  - plastic bearings
-  - stainless bearings
-  - spherical plain bearings
-  - linear bearings
-  - ball bearing units
-  - special bearings
-  - production and design of bearings, engineering and training
-  - bearings for hydraulic and pneumatic
-  - linear guiding system, screws, rods
-  - hydraulic rods and tubes
-  - chains and V- belts
-  - shaft seals and V- rings
-  - bearings assembly and maintenance
-  - balancing and adjusting of motors
-  - maintenance tools, pullers, induction heaters and hydraulic
-  - lubrication, CLS production, spare parts
-  - diagnostic - on line, off line and monitoring systems
-  - chemical products - filler sticker and special lubrication
-  - storage and logistic
