VIDEO CONFERENCING SYSTEMS

**PROFESSIONAL
ONLINE CONFERENCES
AND LIVE TRAINING**

VIDEO CONFERENCING IN REAL TIME

alfaview® is a video conferencing solution that enables you to hold online meetings across the world in real time and in consistently high quality.

100 OR MORE VIDEOS

Meet and connect with 20, 50, 100 or more people in alfaview®. All conference participants are transmitted live with video and audio. Everyone can see and hear each other and work on projects as a team from various locations.

CUSTOMIZED COMPLETE SOLUTION

alfaview® provides customized and scalable virtual meeting rooms for teaching situations, meetings or business calls. With alfaview®, companies, universities and training institutes have the opportunity to connect and engage with clients, students and collaboration partners.

VIDEO CONFERENCING SYSTEMS

ONLINE COURSES AND BUSINESS MEETINGS:

With alfaview® each participant can share its screen, not only the host. Share a particular software program, a presentation, an image, a document or even the whole desktop.
