

# Chromatone™

## AUTUMN SHADES

The Autumn Shades selection of 60 Intermediate Chromatone colours reflect a close identification with nature. The distinctive mellow shades associated with natural dyes and pigments are an important colour statement.

These shades capture the more colourful side of nature, emphasising the combination of warm sun golds and burnt earth reds, with contrasting Mediterranean Sea blues and clear, fresh greens. The softer, more harmonious shades range between khaki, rust, terracotta and soft aubergine.

The latest shades add to the basic colours of the Chromatone Colour Atlas which is the only carpet, furnishings and interior colour reference system on the market which illustrates colour on a yarn substrate.
