Advantages

- Soft Safe Surface
- UV Stable
- High Quality
- Suitable for children to play on
- Easy Installation
- High Resistance
- Capabilities
- Fast Drying
- Low Water Absorption

Installation

- Installation should be completed on a dry, clean, flat and firm surface for best results.
- Carpet laid on a stabilized water – permeable sub base.
- It's possible to cut the roll from the back side with a very sharp knife.
- It is possible to use double-side adhesive tape when fitting artificial grass.

Maintenance – interior

- Regular sweeping or vacuuming
- Brushing with nylon brushes
- Washing with a damp cloth

Maintenance – exterior

- Regular sweeping or vacuuming
- Brushing with nylon brushes
- Removal of coarse debris (leaves, mud...)
- Cleaning with pressure water
