

what if **dynamic** and **decorative** would blend in one for the first time?

the magnet 
dynamic surfaces

Invented, patented and produced in Barcelona,
Specified Worldwide

Works for virtually any surface:
wood decks, wpc, solid and
engineered wood floors, laminates,
walls, ceilings, façades...

The first system which makes it possible to remove and put back again
any single board with no tools.

Boards or panels are clipped in and out with great ease and rapidity,
decreasing installation time and improving product features such as
accessibility, functionality and **longevity**.

3 Key Elements: a special profile, track joists and the magnet clips,
altogether providing **3 revolutionary effects:**

magnet effect #1

Easy

No screws

Fast

No pre drilling

Silent

No tools

Cost-efficient

INSTALLATION

magnet effect #2

Total access:

Install & Uninstall

FUNCTIONAL SURFACES: Easier maintenance

EFFICIENT SURFACES: Enlarged service life

SUSTAINABLE SURFACES: Relocation properties

TOTAL ACCESS

magnet effect #3

dynamic & flexible

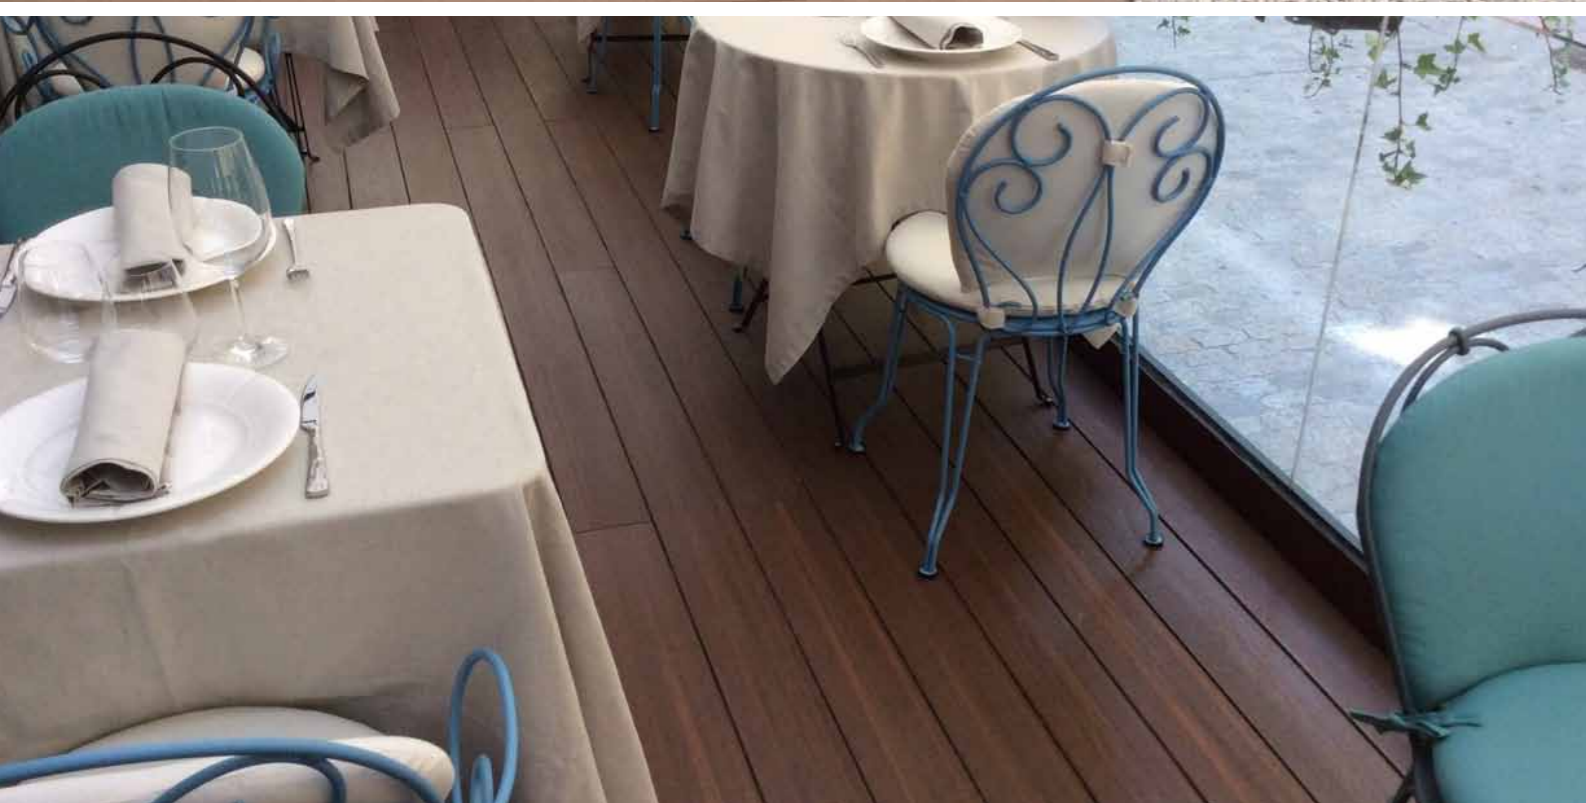

Clipped boards can be moved

vertically and laterally thus

creating dynamic open spaces to access

difficult areas with minimal work

SLIDING

exterpark TECH CUBE(3)

Worldwide launching of the first wpc deck which features the 3 most advanced and important technologies in one product:

1. **Anti stain** Shield Surface
2. **Patented invisible** profile
3. The first **combo WPC**

designed to fit the two most avantgarde installation systems:

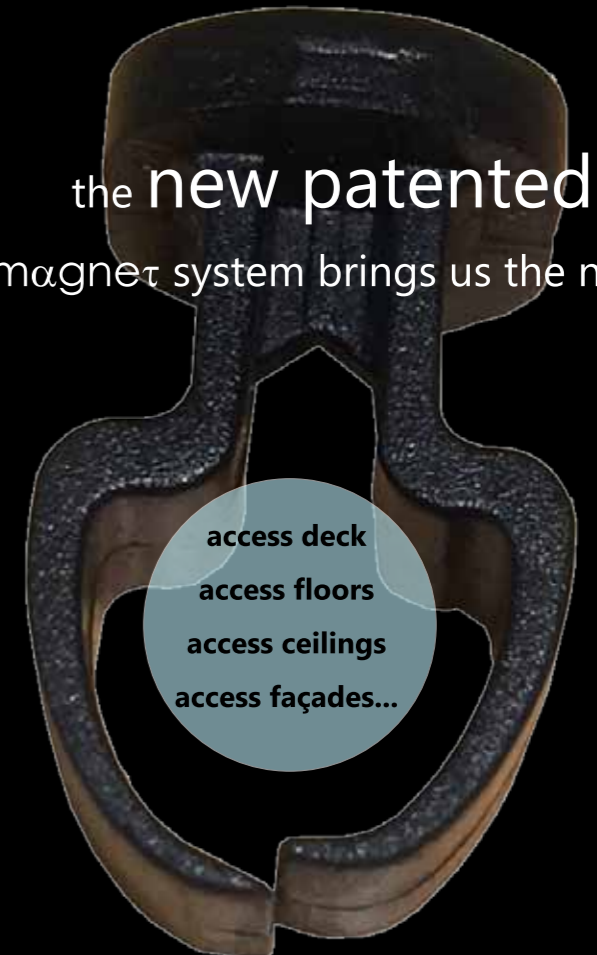

Speed@lip 

the magnet 

the magnet dynamic surfaces

the new patented magnet system brings us the new:

- access deck
- access floors
- access ceilings
- access façades...
