

MADERACRE

Maderacre is a Peruvian company, based in the Amazon Region. We produce and sell timber coming fully from our own forest concessions. Our aim is to offer high quality and on time delivery tropical timber. Beside the timber business, we have a Carbon Credit Project in our forest, verified by VCS and CCB.

Products: Decking, KD and Rough sawn timber

Species: Cumaru, garapa, jatoba, cerejeira, bálsamo, ipé

Source of timber: Manage five forest concessions in Madre de Dios region. Over 220,000 hectares.

Production capacity: 8,000m³

Production machinery: Sawn mill, drying chambers, moulding plant, recovery plant. Forest machinery to remove logs.

Certifications: FSC® forest management in forest concessions (FSC-C017050 since 2007), and FSC CoC in production plant.

Exported countries: Holland, Belgium, Portugal, Germany, US and China

Year of foundation: 2002

Personnel: 300 employees
