Company profile

Shandong Aolai Machinery Technology Co., Ltd., the ISO9001-2008 verified company, is a professional manufacturer for hydraulic rescue tools, including hydraulic pump, hand pump, hydraulic breakings, lifting power-pack, battery breaking tool, hand breaking tool, heavy lifting sets, assist tools etc. Our products have passed EN13204 & CE certificate in for European market and Mandatory Product Certification issued by National Fire-Fighting Equipment Quality Supervision and Inspection Center, which is the most convictive prove in Asia. With advanced production equipment and a workshop of nearly 15,000 square meters, our company yearly produces millions of types of emergency rescue tools, which are mainly used in the accident/disaster rescue by fire bridge, police, high way department and other government and private organizations. We are looking forward to cooperating with you.

No	Product Name	Picture	Specification	Brief description
1	Hand breaking tool sets		Handle Force 600-800KN Prizing up Force for Door \geq 4000N Prizing up Force for Lock \geq 10000N Nail Pulling Out Force \geq 10000N	The manual tools consists of various kinds of working heads, they are the essential rescue equipment for rescuing at the scene, they are specially designed for fire protection work, aid agencies, police officers and special organizations. The impactor with the function of chiseling, cutting, breaking, prying etc. especially suitable for earthquake rescue.

2	Heavy lifting set		<p>Rated lifting force 12T safety factor 4:1 Lifting distance 310-5100mm Rated pressure of hydraulic rod 72MPa Rated pressure of pneumatic rod 0.8MPa</p>	<p>The heavy lifting set consists of various size of support pillars, extension rods, accessories and interchangeable pedestals that are suitable for various contact point. The set can be used in the following situations: Tunnel collapse, vehicle stability, structure collapse and other situations that need vertical and horizontal support quickly, strongly and safely.</p>
3	Battery pump and Heavy combination		<p>Battery pump Rated working pressure 720bar</p> <p>Heavy combination Rated working pressure 350bar Opening Distance of Blades 280mm</p>	<p>Battery pump supply power with NSK bearing and DICHTOMATIK seal ring which imported from Germany, together with the combination, this set is suitable for moving heavy objects by matching up haulage chain, traffic accident rescue, earthquake disaster relief, buildings collapsing and long distance, high places or high elevation rescue operations.</p>
4	Vehicle Lifting Set		<p>the max.load of primary set and standard set is 18 ton, the max.load of highway set is 36 ton</p>	<p>The vehicle lifting set mainly used for stabilizing and supporting accident vehicles, transportation tools, machines and trucks at the construction site. this set has a wide assortment of aluminum alloy base, so there is no vehicle on the road, runway or track that it can't stabilize. When your vehicular rescue needs the strongest system available, look no further.</p>
