

WATERCASE

WATER PURIFICATION SYSTEM

COMPACT, PORTABLE, AND AUTONOMOUS IN ENERGY
WATERCASE FILTERS ANY CONTAMINATED FRESH WATER

« The WATERCASE provide a reliable safe water supply anywhere for disaster or emergency response. It simplify logistic matters.
It also features grey water recycling capacity for quarantine or confinement purpose. »

TECHNICAL FEATURES :

- ➔ Filtration capacity : 20 to 30 liters/h (720 l/day)
- ➔ NPSH (Net Positive Suction Head) : 1 meter
- ➔ Discharge capacity : 10 meter
- ➔ Certified & Reinforced Flight Case (IP 67)
- ➔ Dimensions 550 x 350 x 230 mm
- ➔ Weight : 15 kg
- ➔ Power supply :
 - Integrated foldable solar panel
 - Multi tension adapter
110 AC / 220 AC / 12 V DC
 - Power consumption : 60 W

PERFORMANCES :

- ➔ Self cleaning system. Do not require any chemical additive or cartridge replacement.
- ➔ Ultrafiltration, reverse osmosis and UV light process eliminate 99,999 % of waterborne diseases, bacteria and viruses.
