

Hand-held Search Light LED 5000

The **hand-held searchlight Power LED 5000** is used with its 9 ° optics primarily for screening of places of accident. The pistol grip lies ergonomically in the hand and provides an optimal handling of the searchlight. It impresses with a light capacity of 5.000 lm and can be run with an operating voltage of 12V or 24V DC as it is used in typical vehicles. The current consumption is just 3A operated with 12V and 1,5A with 24V. The complete lamp weighs just 1,3 kg, measures 150mm length and a diameter of 109mm. It is available in different shapes. The coiled cord can be pulled up to 4m.

SPECIFICATIONS

Light output	: 5.000 lm
Operating voltage	: 12 or 24V DC
Current consumption	: 3,5 A (12V) / 1,75 A (24V)
Technique	: 4 circles of light 3 LEDs - Total 12 LEDs Pistol grip
Color temperature	: 6500 K
Housing	: aluminum
Front glass	: polycarbonate shock-insensitive
Resistance	: Ip65
On/Off Switch	: LED luminated switch SS
Dimensions	: Ø 109 mm x 150 mm
Weight lamp	: 1.300 g
Reflectors	: Spot Optic (ca. 9 °)
Cable weight	: 350 g
Cable length	: 4 m (extended)
Basic variant 12-24V	: luminated ON/OFF switch car plug

Optional accessories:

Vehicle transport recording
Transport case - shock resistant and water tight
C16 plug 12/24V vehicle plug
